Allow us to express our gratitude for having you as one of our loyal customers. We appreciate the support shown to Etvaal during 2023 and value the trust you have put into our product range.

We continue to acknowledge the challenging business environment globally and within South Africa and remain committed to differentiating our company as we pride ourselves on offering products worthy of value to you.

## Product Pricing

As a leading furniture manufacturer, we understand the need to keep costs down while operating efficiently. We constantly search for ways to maximize the value of our products, however, from time to time it is necessary to adjust our product pricing to compensate for the increases in expenses. Due to the recent changes in the global market, we are now faced with unforeseen increases in levels of costs from most sectors including transport, packaging and above all, many of our key raw materials, all of which are unfortunately out of our control.

The continued volatility of prices and shortages on all commodity-based products continues. This has in turn had both a direct and knock-on effect on many products within our product range. The current increases have come to a point that it is no longer absorbable into our current pricing structure or by internal process improvements.

**Consequently, as a result of the above, the frequency of the price movements and careful review of industry practices, we have decided that the best way to handle this situation is to put through a small increase of 2.53 % effective on all deliveries from 1 October 2023.**

We would like to thank you for your continued loyalty and support and greatly regret any inconvenience that may be caused by this increase.
