PRODUCT PRICING

As a trusted furniture manufacturer, Etvaal remains dedicated to delivering exceptional quality, value, and long-term partnership to our customers. This commitment drives us to continuously refine our processes, work smarter, and manage costs efficiently across every step of our business — from sourcing to production and delivery.

Despite these ongoing efforts, we are experiencing sustained increases in key production input costs. In recent months, the price of essential materials such as

- 💰 Board,
- 💰 pine,
- 💰 hardware,
- 💰 and packaging

has continued to climb, driven by a combination of global supply chain volatility, rising fuel and energy costs, and ongoing inflation across the manufacturing sector.

While we have absorbed many of these cost pressures through improved productivity, strategic sourcing, and operational efficiency, the scale and frequency of these increases have reached a level that is no longer achievable within our current pricing structure.

After careful review of market conditions and industry pricing practices, we have made the decision to implement a modest price increase, **effective on all deliveries from 1 NOVEMBER 2025.**

Please note: Our updated price list will be distributed at the end of September. Kindly keep an eye out for further communication.

Price changes effective on
all orders delivered from

We understand the challenges this may pose and assure you that this adjustment is necessary to maintain the high standards of quality, reliability, and service that you have come to expect from Etvaal.

We are grateful for your continued loyalty and support. Should you have any questions or require further details, please don't hesitate to reach out to us.
